DOMESTIC TAX LAWS OF UGANDA

While making reference to this compendium, the following adaptations and general principles should be noted:

Tax Laws are structured into Parts, Sections and Schedules. Parts distinguish the categories of information for ease of reference. Each Part deals with a specific subject area and prescribes the rules or principles affecting the subject area. Sections have headings which describe the subject matter dealt with in the Section, and are further divided into subsections for purposes of organising information in the section. Subsections may be further divided in paragraphs; and paragraphs into sub-paragraphs. Schedules provide for rates of tax and detailed descriptions of the subject matter under the different Parts and sections.

The enactment, passing or making of a law, and its operation or commencement are two different things. An enactment becomes law on the day it receives assent of the President. However, a law only begins to operate from the date of its commencement which is normally provided within the law itself. In the absence of any commencement provision, an Act comes into operation on the date of its assent. As a general rule, all provisions are considered to be prospective from the date of commencement, except when made retrospective by express words in the law or by necessary intention. In case of any ambiguity, a provision should be construed as being prospective. Retrospective operation should not be given to a law if it takes away or impairs an existing right, or creates a new obligation, or imposes a new liability. The only exception to this general rule would be for matters of procedure.

The Amendment Acts relied on for insertions, additions, substitutions or repeals in this reproduction are indicated as side notes against affected provisions. An Amendment Act of any year normally has a commencement and effective date of 1st July of that year (i.e. the first day of the financial year), unless stated otherwise.

In this compendium, substitutions or insertions of words within original provisions are indicated in italicised font. Substitutions replacing or substantially altering the wording of existing or original provisions or sections are indicated in normal font, but with side notes for the Amendment Act relied on. Insertions of new provisions are also indicated in normal font. Repealed substantive provisions, words or terms have not deleted but indicated in faded font, while repealed procedural provisions have been deleted. This is because amended or repealed substantive provisions are still relevant for application to tax periods prior to the amendment or repeal. Amendments affecting procedure can be applied retrospectively to obligations that are still outstanding at the time the amendment takes effect, unless the circumstances of the obligation prevent, by implication, its application.

As a general application rule, all amendment Acts are considered to be prospective except when made retrospective by express words or by necessary intention. However, it is important to note that the application of an amendment to an event or transaction which is continuing and not complete when a new provision comes into force does not amount to giving a retrospective operation to the law if, it taxes that ongoing or continuing event or transaction.

Disclaimer

Tax laws are among the most dynamic pieces of legislation because they are amended almost every year to serve various economic and social goals of the government. This necessitates that the laws are regularly updated with the various amendments for ease of reference. This compendium contains an up-to-date reproduction of the Income Tax Act, Cap 340, the Value Added Tax Act, Cap 349, the Excise Duty Act 2014, and the Tax Procedure Code Act, 2014. It also includes subsidiary legislation and practice notes under different the tax laws. In updating this version, the “Reprint of the Income Tax Act and the Value Added Tax Act” as at 19th October 2012, by the Uganda Law Reform Commission was used as an authentic reference for conformity; and all the amendments to the principal Acts and Regulations have been incorporated to date.

This compilation is the personal effort of the undersigned. It is neither prepared by Order of the Government of Uganda nor does it purport, if printed, to have been printed by the Government Printer or by or under the authority of the Attorney General or Parliament, and cannot therefore, under any circumstances, be a substitute for a Publication by the Government of Uganda. (5) Income derived, or expenditure or losses incurred, by a partnership retain their character as to geographic source and type of income, expenditure, or loss in the hands of the partners, and are deemed to have been passed through the partnership on a pro rata basis unless the Commissioner permits otherwise.
(6) Subject to subsection (7), a partner’s share of partnership income or loss is equal to the partner’s percentage interest in the income of the partnership as set out in the partnership agreement.

(7) Where the allocation of income in the partnership agreement does not reflect the contribution of the partners to the partnership’s operations, a partner’s share of partnership income or loss shall be equal to the partner’s percentage interest in the capital of the partnership.

(6) Section 3(1)(d) of the Income Tax Decree 1974 continues to apply to an amount referred to in Section 21(1)(h) of this Act if the payer of the alimony, allowance, or maintenance has obtained a deduction for the payment under the Income Tax Decree 1974 prior to the commencement of this Act.

(9) Subject to subsection (10) and (11), where, as a result of the application of this Act, a gain or loss on disposal of an asset is subject to tax being a gain or loss that would not otherwise have been subject to tax, the cost base of the asset is calculated on the basis that each item of cost or expense included in the cost base and which was incurred prior to that date is determined according to the following formula -

\[ \frac{CB \times CPID}{CPIA} \]

- **CB** is the amount of an item of cost or expense incurred on or before 31st March 1998 included in the cost base of the asset;

- **CPID** is the Consumer Price Index number published for the month ending on 31st March 1998; and

(16) For the purpose of applying subsections (7) to (14) to a taxpayer permitted to use a substituted year of income for the first year of income under this Act -

(a) the reference in those subsections to 31st March 1998 is treated as a reference to the day immediately preceding the commencement of the first year of income of the taxpayer under this Act; and

(c) the amount of any assessed loss to be deducted in the first year of income after the exemption has expired is calculated on the basis that this Act and its predecessor has always applied to the person.

(24) Notwithstanding the repeal of Section 25 of the Investment Code 1991, and without prejudice to other relevant provisions of this Section, an investor who, immediately before the commencement of this Act, holds a valid investment licence under the Investment Code 1991, and who but for this Act would be eligible for the grant of a certificate of incentives and whose application had been approved for a certificate of incentives shall be issued with the certificate in accordance with the Investment Code 1991, as if Section 25 of the Code had not been repealed.
(25) Where a person, but for the repeal of Section 25 of the Investment Code 1991, would have been issued with a certificate of incentives under the Investment Code 1991, and the person had placed an item of eligible property, as defined in Section 28(3) into service during the year of income immediately preceding the person’s first year of income under this Act, the person shall be treated as having placed the item of eligible property into service during the person’s first year of income under this Act.

(26) Subject to subsection (27), where the income of a person is wholly or partly exempt from tax under –

(a) a notice published in the Gazette under Section 12(2) of the Income Tax Decree 1974; or

These Practice Notes, which are binding on all URA officers unless altered or revoked, were issued to achieve consistency in the administration of the Income Tax Act and to provide guidance to taxpayers and officers of the Uganda Revenue Authority.

**Practice Notes – 2001**

**ISSUE DATE** : 2\textsuperscript{nd} November 2001  
**EFFECTIVE DATE**: 1\textsuperscript{st} July 2001  
**ISSUED BY** : Annebritt Aslund - CG

1. **Recruitment Expenses**

   All expenses genuinely incurred by taxable employers in the recruitment of employees should be treated as incurred in the production of income under Section 22 of the ITA and allowed as a deduction.

2. **Deduction of Bad Debts**

   (a) For persons other than financial institutions, a bad debt is allowed as a deduction only if all reasonable steps for recovery have been taken and there is reasonable ground that the debt will not be recovered.

   (b) For financial institutions, specific reserves for identified losses or potential losses are allowable as a deduction. For this purpose in respect of financial institutions, bad debts provided for in accordance with the Bank of Uganda Regulations are allowable as a deduction. [Refer to Prudential Norms on Asset Quality for Financial Institutions – Paragraph 12(1) to (6)]

   (c) Paragraph 12(7) of the same Bank of Uganda Regulations provides for 1% general provision on the total outstanding credit facilities. This 1% general provision does not satisfy the requirements of Section 25 of the ITA and is therefore not deductible.

   (d) Any recoveries of previously written off bad debts will be treated as income and taxed in the year in which the recoveries are made.
3. Initial Allowance

Placing “an item of eligible property into service for the first time…” should be interpreted to mean for the first time in the taxpayer’s business. Therefore where taxpayer ‘B’ buys equipment which has been used by taxpayer ‘A’ in his business, taxpayer ‘B’ is entitled to initial allowance in the first year in which he puts the same equipment to use notwithstanding that ‘A’ got initial allowance in respect of the same equipment.

4. Carry Forward of Losses by Companies enjoying Tax Holidays under Certificate of Incentives – Section 166(23)

The meaning of this subsection is that in respect of companies enjoying tax holidays, a tax computation will be done under Section 166(23)(c) for each of the tax holiday years as if the company was not exempt, and notional deductions made for Sections 27, 29, 30 and 31 under Section 166(23)(b) so that any loss in the final tax holiday year may be carried forward for deduction in the first year after expiration of the tax holiday and subsequently in accordance with Section 38.

5. Valuation of Benefits – Housing provided to Domestic Workers within the same Compound as the Person they work for (commonly referred to as “Boys’ Quarters”)

Workers quarters of this nature have no market value in terms of rent. Consequently, no benefit should be attached to such accommodation for domestic workers under paragraph 10 of the Fifth Schedule.

6. Valuation of Benefits – Provision of Security Guards

An employer’s provision of security guards is not classified as a taxable benefit under the Fifth Schedule.

7. Computer Software

Computer software is an integral part of computers and therefore a class 1 depreciable asset under the Sixth Schedule of the ITA.

8. Withholding Tax on Professional Fees paid to Residents

In respect of Section 119(A), the following professionals will be deemed to have regularly complied with the obligations imposed under the Income Tax Act –
A. All Professionals who are registered for VAT purposes;

B. Doctors, Dentists or Nurses with a fixed place of business and registered for income tax purposes.

Professionals not covered by the above may, on application to the Commissioner General, be granted exemptions.

9. Any assessments that have become final and conclusive as at 1st July 2001 shall not be re-opened on account of variance with these Practice Notes.

1. **Foreign Currency Debt Gains and Losses – Section 48(4)**

   This Section requires notification of foreign currency debt to be given to the Commissioner in writing before a foreign currency loss in respect thereof can be allowed as a deduction.

   Information relating to foreign currency gains and losses must be available in the accounts. Therefore the notification requirement is deemed to be satisfied when the accounts have been submitted. If any further details are necessary, they should be provided when requested.

2. **Withholding Tax on Professional Fees – Section 119A [Now 118A]**

   This Section requires deduction of withholding tax from management or professional fees paid to resident professionals.

   Professional here shall have the same meaning as under Section 4(7), namely “a resident taxpayer who is in the business of providing medical, dental, architectural, engineering, accounting, legal or other professional services”.

   Other professional services shall be limited to persons belonging to a vocation or calling that involves some advanced learning or science with a minimum qualification of a Diploma or Degree, or its equivalent.
1. Treatment of Expenses and Losses incurred by Financial Institutions on Loans given out for Agricultural purposes

The Income Tax (Amendment) Act 2005 inserted a provision under Section 21 that exempts from tax interest earned by financial institutions on loans granted for agricultural purposes.

Under Section 22(1)(a) ITA, expenses and losses are allowed only to the extent to which the expenditures or losses were incurred in the production of income included in gross income. Expenses and losses incurred in producing income that is exempt from tax are therefore not allowable for tax purposes.

Below is the recommended tax treatment of expenses related to deriving exempt bank interest, and procedures to be followed:

(a) Direct Finance Cost (Interest on borrowed funds)

(i) Interest payable by a Financial Institution on borrowed funds should be apportioned between loans for agricultural purposes and loans for other purposes using the formula –

\[
\text{Interest relating to agricultural loans} = \frac{A+B \times E}{C+D}
\]

where,

A loans (principal) for agricultural purposes outstanding at the beginning of the Year;
B loans (principal) for agricultural purposes outstanding at the end of the year;
C borrowed funds at the beginning of the year;
D borrowed funds at the end of the year;
E the total interest cost for the year.
(ii) The portion of interest obtained using the formula above is not tax allowable.

(b) Provisions for Bad and Doubtful Debts

Specific provisions as well as general provisions made in respect of agricultural loans are not allowable for tax purposes as per provisions of Section 22(1)(a).

(c) Overheads and other Expenses

(i) Overheads are allowed wholly because they cannot be directly traced to agricultural loans, and possible bases of apportionment are highly subjective.

(ii) Administrative and other establishment expenses are also allowed wholly because of the difficulty in obtaining a suitable base for apportionment.

(d) Any other expenses that can be separately identified and is wholly related to agricultural loans is not allowable for tax purposes.

(e) Transitional Loans

This refers to loans that had already been advanced by financial institutions for agricultural purposes before 1st July 2005.

Interest accruing to a financial institution out of this category of loans after 1st July 2005 is exempt, while the related expenses are not allowable for tax purposes.

(f) Financial Institutions should submit with their final returns and accounts the following information –

(i) A breakdown of specific provisions between those made against loans for agricultural purposes and those made against loans for other purposes;

(ii) Total interest cost for the year;

(iii) Opening and closing balances of the principal in respect of loans advanced for agricultural purposes; and
(iv) Opening and closing balances of total interest-incurring funds available to the financial institution for lending.

(g) Definitions

“Agricultural loan” means a loan for primary production purposes of farming, forestry, fish farming, bee keeping, animal and poultry husbandry, or similar operations.

“Financial Institution” is defined in the ITA.

2. Exemption of Income of a Collective Investment Scheme

The income of a Collective Investment Scheme (CIS) is exempt from tax under Section 21(1)(t) of the ITA to the extent of which the income is distributed to participants in the Collective Investment Scheme.

A Collective Investment Scheme is defined in Section 3 of the Collective Investment Scheme Act to mean –

“…any arrangement with respect to property of any description, including money, the purpose or effect of which is to enable persons taking part in the arrangement, whether by becoming owners of the property or any part of it or otherwise, to participate in or receive profits or income arising from the acquisition, holding, management or disposal of the property or sums paid out of such profits or income.”

This definition is adopted for purposes of the ITA under Section 2.

To qualify as a CIS under the above definition, the following conditions must be satisfied:

(a) The participants in the scheme must not have day to day control over the management of the property in question;

(b) The participant’s contributions and ultimate income/profits in relation to a property as a whole (not as separate parts unless there’s free exchange or rights) must be pooled;

(c) The property must be managed as a whole by the operator of the scheme or on his behalf.
Arrangements that do not meet the above conditions and those outlined under Section 3(5) of the CIS Act do not constitute a CIS for the purposes of the ITA and would not enjoy the exemption.

3. **Exempt Organisation**

For purposes of the definition of exempt organisation in Section 2 of the ITA, in order to be considered –

(a) “charitable” – an organisation must be proved to provide services for public benefit falling under any of the following categories:

(i) the relief of poverty;

(ii) the advancement of education;

(iii) the advancement of religion; or

(iv) other purposes beneficial to the community within the legal understanding of charity.

Whereas the public benefit in the above categories can easily be assumed, an organisation claiming to be charitable under category (iv) shall positively demonstrate the public benefit provided.

(b) “an institution of public character” – the benefit provided must be to the public at large or at least to a sufficient section of the community.

4. **Widely Issued – Section 83(5)(a)**

For interest paid by a resident person in respect of debentures to be exempt from tax, the “public offer test” must be met. This means the debentures, debenture stock, mortgage stock, loans, loan stock or similar instrument acknowledging indebtedness whether secured or not, must have been issued –

(a) to a reasonable number of people operating in a capital market;

(b) to several investors with a history of previous acquisition of debt instruments or debentures;

(c) as a result of negotiations for the loan in a public forum used by financial markets dealing in debt instruments; or
(d) to a dealer, manager or underwriter for the purpose of placement of the debt instrument.

The issuance of debentures should therefore be non-exclusive and preferably in a capital market arrangement that caters for public involvement.

5. “Partly Used” – Section 27(10) and 2(u)

The phrase “partly used” relates to use of assets for both business and non-business purposes.

1. Withholding Tax on Payments for Goods and Services – Meaning of “aggregate” and “gross amount” under Section 119(1) ITA.

(a) For purposes of Section 119(1) ITA, the word “aggregate” is interpreted to mean the total payments to a supplier in respect of a supply of goods or services as provided for in a contract. The threshold of one million shillings is therefore in respect of the total contract value. This implies that separate supplies which constitute one contract of one million shillings and above are subject to 6% WHT irrespective of whether the amount paid at any given time in respect of the supply is less than the threshold provided under Section 119(2).

(b) Gross amount of the payment under Section 119(1) refers to the actual consideration for goods or services exclusive of any tax (i.e. VAT or Excise Duty)

2. Exemption for 6% WHT on Sales by Insurance Brokers/Agents

Section 119(1) gives the Government of Uganda, a Government Institution, a local authority, any company controlled by the GOU or any person designated in a notice issued by the Minister the mandate to withhold at a rate of 6% on the gross amount payable to any person in Uganda for the services or goods supplied. This includes payments to insurance brokers/agents.
In exercising this provision, the WHT agents have been withholding tax at 6% from payments of premiums to brokers/agents. Inevitably, the WHT is levied on the gross payments to the agent who may be entitled only to a part of the sale proceeds as a commission, yet the WHT credit can only be claimed by the agent and not the principal on whose behalf the sales are made.

Therefore, in order to iron out the anomaly, 6% WHT shall not apply on payment of insurance premiums.

3. 6% WHT on Sale of Air Tickets

Section 86 ITA imposes tax on every non-resident person carrying on the business of air transport operator who derives income from the carriage of passengers who embark in Uganda at a rate of 2% of the gross income. Section 87 provides that the tax is a final tax if the tax payable has been withheld by a withholding agent under Section 120 and paid to the Commissioner under Section 123.

Section 119(1) gives the Government of Uganda, a Government Institution, a local authority, any company controlled by the GOU or any person designated in a notice issued by the Minister the mandate to withhold at a rate of 6% on the gross amount payable to any person in Uganda for the services or goods supplied. This includes payments to travel agents.

However, it is noted that travel/ticketing agents receive money for air tickets on behalf of the airlines which are already taxed under a different arrangement.

Therefore, in order to iron out this anomaly, 6% WHT shall not apply on payments for air tickets.

1. Cessation of Tax Credit Certificates in respect of Final Withholding Tax

Section 128 (3) provides that tax withheld by a withholding agent from a payee is deemed to have been paid by the payee/supplier and is credited against the tax assessed on the payee/supplier for the year of income in
which the payment is made. The payee/supplier is entitled to a Tax Credit Certificate (TCC) with which he/she makes claim of the tax withheld.

However, in respect of withholding tax that is final tax under section 122 of the Income Tax, the tax withheld cannot be claimed as credit against any other tax liability in Uganda.

Therefore, with effect from 1st May 2008, URA will no longer issue Tax Credit Certificates in respect of final tax namely;

(a) Tax that is withheld on payment of interest by a financial institution to a resident individual, unless the individual receives it in the capacity of a trustee (section 117);

(b) Tax that is withheld on payment of interest by a financial institution to resident retirement fund (section 117);

(c) Tax that is withheld on payment of interest by a financial institution to an institution or organization which the Commissioner General has exempted from income tax under section 2(bb);

(d) Tax that is withheld on payment of interest on treasury bills (where the interest is payable on Treasury Bills that matured on or after 1st July 2006); and

(e) Tax that is withheld on payment of dividends to a resident individual (section 118);

2. Boundaries of Kampala and Entebbe Areas for Income Tax Purposes

Section 28 of the Income Tax Act provides for Initial allowance and subsection (1)(a) provides that;

“where the asset is placed in service outside an area prescribed in part IV of the sixth Schedule to this Act, seventy five per cent of the cost base of the property at the time it is placed in service: or

(b) in any other case, fifty per cent of the cost base of the property at the time it is placed in service.”

And Part IV of the sixth schedule provides as hereunder,

“The following areas are prescribed for the purposes of section 28 - Kampala, Entebbe, Namanve, Jinja, and Njeru.”
It has been noted that there has been a contention as to the boundaries of Kampala and Entebbe areas for purposes of the above quoted provision. This therefore is to clarify on what Kampala and Entebbe Tax Districts are composed of.

Kampala area for Income Tax purposes and in particular the above quoted provision is composed of the five political divisions namely;

1) Kampala Central;
2) Nakawa;
3) Rubaga;
4) Makindye and
5) Kawempe

Any area outside the above does not comprise Kampala for purposes of the Income Tax Act provision quoted above.

Entebbe area for tax purposes shall comprise of the administrative divisions of Entebbe Municipality which are divisions A and B. The divisions are further divided into four parishes that is,

1) Kigungu Parish;
2) Kiwafu Parish;
3) Central Parish and
4) Katabi Parish

Any area outside the above does not comprise Entebbe for purposes of tax.

For purposes of uniformity, ease in operation and implementation of Section 28 of the Income Tax Act, Kampala and Entebbe areas shall be defined as above.

(1) A person who receives imported services other than an exempt service shall account for the tax due on the supply, and the taxpayer shall account for that service when performance of the service is completed, or when payment for the service is made, or when the invoice is received from the foreign supplier, whichever is the earliest.

(2) The value for calculating the amount of tax payable under paragraph (1) shall be the taxable value of the supply determined under section 21 of the VAT Act and the taxable person receiving the services shall apply the tax rate to the taxable value to calculate the tax due and he shall enter both the value and the tax calculated in his Tax Return.

(3) If a taxable person carries on a business both in and outside Uganda, and there is an internal provision of services from the part outside Uganda to the part in Uganda, then, in relation to those services, the following applies for the purposes of the Value Added Tax Act and these Regulations –

(a) that part of the business carried on outside Uganda is treated as if it were carried on by a person (referred to as the “overseas person”) separate from the taxable person;

(b) the overseas person is not a taxable person; and
the internal provision of services is treated as a supply of services made outside Uganda by the overseas person to the taxable person for reduced consideration.

14. Credit for Input Tax for Persons making Taxable and Exempt Supplies

(1) Where a registered taxpayer who is making taxable and exempt supplies is disadvantaged by the provisions of Section 28(7)(b) of the Act, the Commissioner General may approve an alternative method for calculating the input tax to be credited, as described in paragraphs (2) and (3), which shall be known as the Standard Alternative Method.

(2) The registered taxpayer may directly attribute input tax separately to the exempt and taxable supplies in so far as this is possible and may claim credit for all the input tax related to taxable supplies and for none of the input tax related to exempt supplies.

(3) The balance of input tax which cannot be attributed to taxable or exempt supplies shall be apportioned under the provisions of Section 28(7)(b) of the Act; however, the provisions of Section 28(13) and (14) of the Act shall be complied with in respect of the non-attributable input tax.

(4) Where a registered taxpayer wishes to use the Standard Alternative Method, or any other method which is not provided for in Section 28(7)(b) of the Act, that taxpayer must seek the written approval of the Commissioner General.

ISSUE DATE : 18th June 2007
EFFECTIVE DATE: 
ISSUED BY : Allen Kagina (Mrs) - Commissioner General

1. Definition of the Terms “Medical, Dental and Veterinary Equipment” for VAT Purposes.

Paragraph 1(q) of the Second Schedule to the VAT Act provides that the supply of dental, medical and veterinary equipment is an exempt supply.

Definition of Equipment

(a) The Act does not define the term equipment. This PN is therefore intended to provide the meaning of what should be treated as medical, dental and veterinary equipment.

(b) Medical, Dental and Veterinary equipment is any equipment or device which has features or characteristics that identify it as having been designed to be used alone or in combination for a medical, dental or veterinary purpose or function such as the diagnosis, prevention, monitoring, treatment, alleviation of or compensation for an injury and alleviation of disease in human beings and animals.

(c) The equipment/device will usually be durable although certain disposable items such as syringes may still be equipment.

(d) Based on the above definition, medical, dental and veterinary equipment covers a wide range of goods from simple items like bandages and syringes, to complex machinery such as X-ray machines as well as parts and accessories for use with the equipment.
(e) Parts and accessories will be treated as medical equipment/device if they are intended specifically by manufacturers to be used together with the parent medical device.

(f) Parts are integral components without which the equipment is not complete; while accessories are optional extras which can be used to improve the operation of the equipment or enable it to be used to better effect. Accessories do not include items which have an independent function.

(g) For purposes of clarity, medical, dental and veterinary equipment shall include articles under heading 9018 – 9022 of the Harmonized Systems Code (HS Code), contact lenses, spectacle lenses (excluding frames) and those that will be treated as such based on the classification given by the National Drug Authority.

Exclusions

(a) Excluded from the definition are chemical reagents and medicines, mosquito nets, cleaning and sterilizing fluids, disinfectants, cotton wool (other than sterilized), hospital linen, blankets, drug trolleys, gloves (other than surgical), gymnasium equipment (other than specialized physiotherapy equipment), clothing (other than specialized ones such as surgical masks and gowns), lockers, bathroom scales.

(b) This definition shall also exclude general use items used to equip or facilitate a medical facility or items that can be put to diverse uses which are not necessarily medical uses e.g. television sets, telephone sets or a fan used in a medical ward will not be considered medical equipment.

2. Definition of Medicines and Drugs for VAT purposes

(a) Paragraph 1(c) of the Third Schedule VAT Act provides that the supply of drugs and medicines is a zero-rated supply. However, drugs and medicines are not defined.

(b) Medicines and drugs shall be interpreted to be any substance or article (not being an equipment/device, instrument, apparatus or appliance) which is for use wholly or mainly in either or both of the following ways:

(i) by being administered to human beings or animals internally or externally for medical purposes; or
(ii) as an ingredient in the preparation of a substance or article to be so administered.

(c) Therefore, medicines and drugs are any substance, preparation or mixture of substances used or intended for use in diagnosing, or treating of disease, disorder or abnormal physical state or the symptoms thereof in human beings or animals.

(d) The World Customs Organisation (WCO) uses the term “medicament” in reference to medicines and drugs.

(e) A medicament is an agent that promotes recovery from injury or ailment. Medicaments are impregnated or coated with pharmaceutical substances for therapeutic or prophylactic use in medical, surgical, dental or veterinary purposes.

(f) For purposes of VAT and clarity, medicines and drugs shall include surgical dressings, biological products such as vaccines and blood products, as well as items under headings 3004 and 3005 of the HS Code.

Exclusions

(a) The definition of medicines and drugs shall not include preparations commonly used for toilet purposes, or in connection with the care of the human body, whether for cleansing, deodorizing, beautifying, preserving or restoring whether or not possessing therapeutic or prophylactic properties e.g. medicated soaps, shampoos, toothbrushes, dental pastes and creams, facial and body creams, hair removing creams, aromatherapy oils, mouth washes, lip balms, deodorants, antiperspirants, disinfectants. [The definition shall also not include lozenges and all items under headings 3301 to 3307 of the HS Code]

(b) Nutrition/Food supplements are not drugs or medicines for VAT purposes because they are intended to supplement one’s dietary requirements and do not contain active pharmaceutical substances and as such shall be treated as taxable supplies for VAT purposes.
VAT on Imported Rice

1. Paragraph 1(a) of the Second Schedule of the VAT Act provides that the supply of unprocessed agricultural products and livestock is an exempt supply.

2. Paragraph 3 of the same Schedule states that

   “for purposes of paragraph 1(a)...unprocessed includes low value added activity such as sorting, drying, salting, filleting, deboning, freezing, chilling, or bulk packaging, where, except in the case of packaging, the value added does not exceed 5% of the total value of the supply.

3. All imported rice shall be considered to be unprocessed agricultural produce for purposes of the VAT Act and therefore falls under the provisions of the Second Schedule which provides for exempt goods.

---

1. VAT treatment of Computer Printers

Paragraph 1(v) of the second schedule of the VAT Act provides that, “the supply of computers, printers, parts and accessories falling under heading 84.71 and 84.73 of the harmonized coding system of the customs law is exempt;”

Following the recent changes in the Customs coding system i.e. from the Harmonized Commodity Description and Coding System 2002 (HS 2002) version to HS 2007, computer printers became classifiable under two tariff headings- 84.71 (when presented with a computer) and 84.43 (when presented separately), with specific HS codes as 8471.60.00 and 8443.32.00.
As a result of the new coding, the current provisions of paragraph 1 (v) of the second schedule, exclude computer printers classified under HS Code 8443.32.00.

This position is a mismatch arising from the change in the Customs coding system, but not a change in policy.

Therefore, the purpose of this practice note is to clarify that, the supply of printers as provided for in paragraph 1 (v) of the second schedule of the VAT Act, includes desktop printers or printers presented separately specifically under subheading 8443.32.00 of the East African Community Common External Tariff.

2. Boundaries of Kampala District for VAT purposes

The Value Added Tax (Amendment Act) 2008 deleted “and Entebbe” from the Second Schedule paragraph (u) under Exempt Supplies to read:

“the supply of accommodation in tourist lodges and hotels outside Kampala District;”

This practice note is intended to clarify on what constitutes Kampala District for VAT purposes to bring about uniformity and ease the administration of VAT collection.

Kampala District shall constitute the five political divisions namely;

1. Kampala Central; 2) Nakawa; 3) Rubaga; 4) Makindye; and 5) Kawempe.

Any area outside the above political divisions does not fall under Kampala District for VAT purposes.

**ISSUE DATE** : 2\(^{nd}\) June 2008

**VAT treatment of supply of goods as part of the transfer of a business as a going concern**

Paragraph 1(k) of the second schedule of the VAT Act provides that, “the supply of goods as part of the transfer of a business as a going concern by one taxable person to another taxable person is exempt.”
The “transfer of going concern” is defined in paragraph 2 (e) of the second schedule to include “the disposal of any part of a business which is capable of separate operation.” However, this definition is not sufficient in explaining what a sale of a business as a going concern entails.

The purpose of this practice note therefore, is to clarify what constitutes the supply of goods as part of the transfer of a business as a going concern for purposes of section 19 and paragraph 1 (k) of Schedule II of the VAT ACT, Cap 349.

The supply is VAT exempt if all of the following requirements are met;

1. The supplier disposes of any part of a business which is capable of separate operation (for example a branch of a business).

2. Both the seller and the buyer must be registered as taxable persons for VAT.

3. The Agreement of Sale which should be duly executed must make it absolutely clear that the property is a whole or part of the Seller's business which is being sold as a going concern.

4. Activities of the business must continue after the business is transferred to the purchaser for at least two (2) years.

5. The supplier supplies to the recipient all of the facilities that are necessary for the continued operation of the enterprise being sold. This may include premises, plant & equipment, stock in trade, intangible assets such as goodwill, contacts and licenses, and all the operating structure and process of the enterprise.

6. The supplier carries on or will carry on the business until the day of the supply (whether or not as a part of a larger business carried on by the supplier) and that the nature of the business will not change after the transaction.

7. The transferor and transferee shall within 21 days of the transfer, notify the Commissioner General in writing of the details of the transfer in accordance with section 19 (2) of the VAT Act, Cap.349.

**Note:** A mere disposal of an asset used by the business is not a supply of a going concern.
Exemption of VAT in accordance with section 19 and paragraph 1(aa) of the Second Schedule to the VAT Act.

Paragraph 1(aa) of the Second Schedule to the VAT Act was amended by the VAT(amendment) Act 2009 to provide as hereunder;

“The following supplies are specified as exempt supplies for the purpose of section 19 –

the supply of specialized vehicles, plant and machinery, feasibility studies, engineering designs, consultancy services and civil works related to hydro- electric power, roads and bridges construction, public water works, agriculture, education and health sectors”

Definitions:

The meaning below shall be attached to the terms as used in the provision:-

“specialized vehicles” means vehicles manufactured for a particular task other than for the ordinary use of transportation of goods and passengers.

“plant and machinery” includes whatever apparatus is used by a business man for carrying on his business – not his stock in trade which he buys or makes for sale, but all goods and chattels, fixed or moveable, live or dead, which he keeps for the permanent employment in his business.

“feasibility studies” means an investigation to determine whether a particular project system, process etc. is desirable, practicable. It is an analysis designed to establish the practicability and cost justification of a given project. It is a preliminary study undertaken to determine and document project viability. The term feasibility study is also used to refer to the resulting documents or artefact.

“engineering designs” it is the result of a process used by engineers to help develop products. The engineering design is defined as the result of the process of servicing a system, component or process to meet desired deeds. It is a result of a decision – making process in which the basic sciences,
mathematics, and engineering sciences are applied to convert resources optimally to meet a stated objective. It comes as a result of defining the problem, conducting research, narrowing the research and analysing set criteria.

“Consultancy services” means expert advice on a particular project or activity.

“civil works” relates to services in building/construction of hydro-electric power projects, roads and bridges construction, public water works, agriculture, education and health. It involves all the activities involved in the construction process starting from clearing of land to the completion of the project. However civil works does not include the goods used in the construction/projects.

“agriculture” the science or practice of cultivating the land and keeping or breeding animals.

“education” a process of training and instruction especially of children and young people in schools, colleges, universities and other education institution which is designed to give knowledge and develop skills.

“health” Provision of medical care. It deals with the prevention, treatment and management of illness and the preservation of mental and physical well-being through the services offered by the medical and allied health professions.

Implication of the amendment

The provision above exempts VAT on the supplies of goods or services of specialized vehicles, plant and machinery, feasibility studies, engineering designs, consultancy services and civil works related to hydro-electric power, roads and bridges construction, public water works. The exemption has also been extended to the agriculture, education and health sectors.

This means that suppliers of the goods and services highlighted above as goods or services related to hydro–electric power projects, roads, bridges construction, public water works, agriculture, education and health sectors should not charge VAT on these supplies.

In the same spirit, the suppliers shall not claim input tax incurred in the process of making the supplies of the listed services to the above named sectors. The suppliers must maintain a record of evidence of the provision of the services to the listed projects/sectors. The contractors shall also be
required to provide the Commissioner, Domestic Taxes office and their respective stations a list of suppliers and services offered reflecting quantity and values in Uganda Shillings. This shall be in both soft and hard copy.

NB: This exemption is on the supply of the services or goods listed in the provision related to the sectors therein mentioned and not to the contractors.

**PRACTICE NOTES: URA/ VAT/PN2/14**
Reference Number: PN2014090300922    Effective Date: 02/09/2014

The Commissioner General of Uganda Revenue Authority hereby issues these Practice Notes under Section 79 of the Value Added Tax Act, Cap 349, Laws of Uganda.

Section 5 of the VAT (Amendment) Act 2014 repealed Paragraph 1(f) of the Third Schedule to the VAT Act which zero rated the supply of cereals, where the cereals are grown, milled or produced in Uganda. The implication of this amendment is that the supply of cereals grown and milled in Uganda attracts VAT at the rate of 18% with effect from 1st July 2014.

Furthermore, Paragraph 1(a) of the Second Schedule to the VAT Act exempts from VAT the supply of livestock, unprocessed foodstuffs, and unprocessed agricultural products. Paragraph 3 of the same Schedule defines “unprocessed” to include low value added activity such as sorting, drying, salting, filleting, deboning, freezing, chilling or bulk packaging, where, except in the case of packaging, the value added does not exceed 5% of the total value of the supply.

From the research conducted, we have established that in relation to the supply of rice, the value addition activities such as drying, hulling, milling, polishing, grading, sorting and packaging among others exceeds 5%.

This implies that the supply of rice which is ready for human consumption does not fall within the provisions of Paragraph 1(a) of the Second Schedule to the VAT Act nor does it fall under the Third Schedule of the same Act and therefore the supply attracts VAT at the rate of 18%. This also means that imported rice is subject to VAT at 18%.

Our Practice Notes issued on the 14th November 2007 on imported rice are hereby revoked.

Part II - Calculation of Excise Duty Payable in Respect of Excisable Goods and Services whose Excise Duty is expressed in Percentages

1. Calculation of excisable duty payable

The excise duty payable by a person in respect of excisable goods or services whose excise duty is expressed as percentages shall be calculated using the following formula –

\[ A \times B \]

where,

A is the value of the excisable goods or the excisable service; and

B is the rate of excise duty applicable to the goods or service.

2. Determination of value of excisable goods and services

(1) The value of an excisable good shall be the normal ex-factory price of the good exclusive of any tax on that good.

(2) The normal ex-factory price of the good shall include raw material costs, manufacturing costs, labour costs, profit margin, bank charges and interest and all other costs, charges and expenses incidental to the factory, production and sale.

(3) The value of an excisable service shall be the price paid or payable by the consumer of that service excluding value added tax chargeable under the Value Added Tax Act and excise duty chargeable under this Act.

(4) In the case of non-arm’s length transactions, the normal ex-factory price shall be the price at which the transaction would have occurred in the ordinary course of business between the person liable to excise duty and an independent person dealing at arm’s length and, in cases where the price cannot be determined, the price shall, subject to this Act, be decided by the Commissioner.

(5) A sale in the open market between a manufacturer and a buyer independent of each other presupposes –

(a) that the price is the sole consideration;

(b) that the price is not influenced by any commercial, financial or other relationship, whether by contract or otherwise, between the
manufacturer or any person associated in business with him and the buyer; and

(c) that no part of the proceeds of the subsequent re-sale, use or disposal of the goods or services will accrue either directly or indirectly to the manufacturer or any person associated with him.

(6) Notwithstanding this Act, where the Commissioner is satisfied that an arrangement has been entered into or carried out where –

(a) a person has obtained an excise duty benefit in connection with the arrangement; and

(b) having regard to the substance of the arrangement, it is concluded that the person, or one of the persons, who entered into or carried out the arrangement did so for the sole or dominant purpose of enabling the person to obtain the excise duty benefit,

the Commissioner may determine the liability of the person who has obtained the excise duty benefit as if the arrangement had not been entered into or carried out, or in a manner as in the circumstances the Commissioner considers appropriate for the prevention or reduction of the excise duty benefit.

(7) In this section –

(a) “arrangement” includes an agreement, promise, or undertaking whether express or implied and whether or not enforceable, or intended to be enforceable, by legal proceedings, and a plan, proposal, course of action, or course of conduct; and

(b) “excise duty benefit” includes –

(i) a reduction in the liability of a person to pay excise duty;

(ii) an increase in an entitlement of a person to a credit or refund; or

(iii) any other avoidance or postponement of liability for the payment of excise duty.
(8) The value of an imported excisable good is the sum of the value of the good ascertained for the purposes of import duty under the laws relating to customs; and the amount of import duty payable on that good.

(9) The value of an excisable service is the amount exclusive of any tax and duty, paid or payable by the final consumer in consideration for the service.

(10) Where no amount is paid in consideration for the excisable service under subsection (9) or where there is an application of the excisable service to own use by the person providing the service, the value of the excisable service shall be the market value of the excisable service.

(11) The taxable value of money transfer services by cellular service providers, money transfer agencies and other financial service providers shall be the fees charged for a particular money transfer service transaction.
